PREFACE

This is a report of four months of industrial training which was done as part of the requirement needed for the award of National Diploma Certificate which was embarked upon by the technical student after their first year of stay in school.

It is also done to enable the student's to be exposed the practical aspect of their course of study and write down what he/she has gained during the training.

The program is aimed at correcting the incompetence in the school leaving the scientific and technical in country.

DEDICATION

This report is dedicated to the Almighty God, the Beneficent, the merciful, the cherisher of the universe, the uncreated creator of all creatures and the most knowledgeable who seek knowledge just from himself for giving me the opportunity, privilege and understanding to participate in the student industrial work experience scheme (SIWES).

I also dedicate this report to my amiable parent Mr. and Mrs. **Akanbi** for their financial support during the course of the program. May God continue to bless them (AMIN).

4.1 Recommendations

4.1 Conclusion

CHAPTER ONE

INTRODUCTION OF SIWES

The Students Industrial Work Experience Scheme (SIWES) for the 2023 /2024 academic session kicked off the month of in August 2023 and was concluded (4) months in the month of December, 2024. The industrial attachment program is solely aimed at improving in working skills of students in tertiary institutions as well as effecting, learning, participation and observation into proactive invariable fields with respect to grasp very useful practical knowledge which not only makes them employable but also aids in the perfect understanding of theories and operation in their different profession. It is a corporative industrial internship program that involves industries, the Federal Government of Nigeria, Industrial Training Fund (ITF), and Nigeria Universities Commission (NUC). The program is of very high importance considering the lack of adequate practical equipment for learning in most Nigeria tertiary institutions and itself proven as it has been part and parcel of the countries system of education for over 28 years.

AIMS OF SIWES

The Industrial Training Funds Policy document Number 1 of 1973, which established SIWES outline the objective of the scheme. The objectives are to:-

1. To provide an avenue for Students in Nigerian Tertiary Institutions to acquire

Industrial Skills and Experience during their course of Study.

2. To prepare Students for the work they are likely to meet after graduation.
3. To expose students to work methods and techniques of handling equipment and machinery that may not be available in their Institutions.
4. To allow the transition phase from school to the world of working environment easier and facilitate students contact for later job placement.
5. To provide students with an opportunity to apply theoretical knowledge in real work situation there by bridging the gap between theory and practice.

HISTORICAL BACKGROUND OF SIWES

SIWES was set up by the federal government of Nigeria to close the gap between theoretical la was taught in the classroom and actual practices for students in tertiary institution. It was first kicked off and funded by the Industrial Training Fund (ITF) in 1973 the scheme has gone through series of reforms. Its management has changed hands from the ITF in 1978 to various regulatory agencies such as National Universities (NUC) and National Board for Technical Education (NBTE) and board to the ITF again in 1985. These are the major stake holders in SIWES. Consequently, SIWES program was introduced into the curriculum of tertiary institution in the country as far back as 1974 with 948 students from two institution of higher earning and the scheme has over the year contributed immensely to the personal development and motivation of their academic programs and what knowledge and skill will be expected of them on professional practice after graduation.

DEFINITION OF TERMS

1. **SIWES:** Student Industrial Work Experience Scheme. The Scheme was established by the Industrial Training Fund (ITF) in 1973 to solve the problem of lack of adequate preparatory for employment in Industrial by Nigeria graduates of tertiary Institution.

2. Industrial Training Fund: The fund was established in 1971 and has operated consistently and painstakingly within the context of its.

3. CONSOLE: It is considered as the center piece or the very heart of Radio station Hasan (2013) in Adoyi (2020:54) Says, professionally, a mixing console is an electronic device for combining (Mixing) ,routing, and changing the level, tone and/ or dynamics of audio signals

CHAPTER TWO

DEPARTMENTS IN GERIN FM [95.5] ILORIN, KWARA STATE AND THEIR FUNCTIONS

Station Manager

At the top of the pyramid is the station manager, who's responsible for day-to-day operations. She enforces the owner's standards while making sure the needs of all employees are being met. The station manager maintains the budget, hires and fires, trains personnel and reviews employee performance. She also ensures that operations comply with Federal Communications Commission regulations.

Operations Manager

The operations manager holds down the No. 2 spot within a radio station and usually focuses on coordinating, scheduling and promoting on-air programming. He works closely with disc jockeys, anchors and hosts to make sure they represent the station's branding correctly. When new programming options must be found the operations manager is usually in charge of doing the detective work. He answers to the station manager.

Program Director

Program directors create and plan the daily broadcast schedule. This means locating and providing the news, music, or entertainment that should be covered while monitoring on-air activity to ensure content is disseminated properly. There is usually a program director for each individual broadcast. Program directors generally work with the same staff every day and report to the operations manager.

Sales Manager

Having a sales manager working with a team which constantly generates revenue by selling air time to advertisers is vital. Some of her charges research potential accounts, do some cold-calling and generally generate sales leads. Others actually sell air time to meet a quota while negotiating price and payment schedules. The sales manager must often designate employees to perform collections on past-due accounts. The sales manager usually reports to the station manager.

Office Manager

The office manager works with a team of administrative and finance employees to handle logistics, payroll, taxes, bills, audits and legal matters. Administrative employees also field phone calls and take messages for the station manager and operations director. They also book any outside business travel for station employees as well as lodging for guests. The office manager reports to the operations manager or station manager.

Chief Engineer

The chief engineer manages a team that handles all technical matters. In addition to supervising, he must regularly inspect equipment, maintain and repair it when necessary, purchase new equipment when merited and abide by FCC regulations. The engineering staff is often directly involved with broadcasts by editing tracks, managing sound effects and monitoring the station's signal for strength, quality and overall clarity. The chief engineer reports to the operations manager.

On-Air Personalities

Transmitting the station's voice to the public falls to on-air personalities. Disc jockeys play music, take requests and provide information. Anchors deliver the news, weather and traffic updates. Hosts often conduct interviews and allow listeners to call in and become part of the show. All must align with station branding. On-air personalities report to their program director.

BRIEF HISTORY OF GERIN FM [95.5] MHz

The idea of establishing a radio station (GERIN fm 95.5) came from the concern and passion of some Ilorin patriots for the development of the Emirate Community. Ilorin, being the headquarters of both the Ilorin Emirate and Kwara State; has grown from a pre-colonial town into an expanding metropolis. This growth, though desirable; has equally brought challenges that threatened the cultural heritage of the Ilorin Emirate. Besides, the growth is also opening up tremendous opportunities in all spheres of lives. This must be equally harnessed for our teeming youths.

Though, these challenges and opportunities are being addressed in other spheres but there is none through the radio broadcasting. Given the acknowledged positive role of radio broadcasting in development process, the Chief Promoter, Barrister Mahmud Abdulraheem convened a meeting where the persons behind the idea of the station concluded to pursue the community radio license opportunity provided by the National Broadcasting Commission (NBC).

GERIN fm 95.5 was conceived as a community broadcasting station to serve as a rallying point for the people of the Ilorin Emirate and environs. Specifically, the Station will provide leadership in articulating the development NEEDS of the people; moderates their WANTS while vigorously promoting the consensus of the community on issues. It is also to serve the Ilorin Emirate community in providing timely, national and international news and information that are considered relevant to the community. The station shall identify and transmit local music and other music and entertainment materials in line with the cultural values of the people of the Ilorin residents. Gerin FM 95.5, known as "Your Grassroots Companion," is a community radio station based in Ilorin, Kwara State, Nigeria. The station was established by concerned Ilorin patriots, led by Barrister Mahmud Abdulraheem, who sought to address challenges threatening the cultural heritage of the Ilorin Emirate and to harness opportunities for youth development. The station's objectives include promoting the Ilorin language and culture, disseminating relevant news and information, generating revenue through airtime sales and commercial activities, and mobilizing the community for development. Gerin FM 95.5 emphasizes educational broadcasting, with 75% of its programming dedicated to educational content and 25% to general audience programs. Gerin FM 95.5 serves as a rallying point for the people of the Ilorin Emirate and surrounding areas, aiming to communicate for harmony and grassroots development. The station's programming includes shows like "Eji Owuro," which focuses on community participation in governance. Gerin FM 95.5 is available for online streaming, allowing listeners both within and outside Ilorin to access its programs.

STRUCTURE OF GERIN FM 95.5

CHAPTER THREE

SIWES EXPERIENCE AT GERIN FM 95.5, ILORIN KWARA STATE

My Siwes at GERI FM 95.5 Is actually a great one and I have the opportunity of gaining more insight than what we are taught in class, especially in practical aspect. I am under the supervision of Mr Alaya Abdullateef Kayode who gave me the the opportunity to learn more in the News department in which Mrs Barakat Ishola tried enough to show us how reporters gathered news from several event and social issues in which it will be broadcast by the news presenter at a certain time for the audience. I observed and gained experience about writing of news, the more you write the more the level of writing improves, that is continuous exercise in writing of news, stories, articles, features etc. enhance better knowledge.

With this kind of observation, I am able to have the experience of sourcing for news on different sites both online and physical newspapers.

I am able to have the experience on how news is written in a Line up order and not only to write news make a newsworthy but editing of news is major work to make a newsworthy. I have the experience of editing news with the aid of editing tools such as laptop, software applications and so on.

I have experience in the program department on how different kinds of program are been presented live on the studio room. The live program is being controlled from the Master control room (MCR) By a certain specialist and trained personnel whom is saddled with the responsibility of Controlling all the studio activities on system and calling action of when the live program ought to start and end. Such programs of brave FM 99.1 Includes Good Morning Naija, Owuro Lojo, Gbogbo Irawo With Segun James, Faaji Unlimited, Agogo Ayo, Family On The Move, Gbedu Vibe.

I took my time to visit the Studio where I gained little experience on programme preparation and anchoring. Also, I spent time in the language section where I had the opportunity to participate innumerous translations of news stories, editorials and news commentaries of programs into Yoruba language. Another experience is witnessing major equipment in the news room and how it is used such as Teleprompter, Microphones, Headphones, Cameras, Tripod etc.

NEWS WRITING IN GERIN FM 95.5

News writing is one of the things I learnt in GERIN FM, learning news writing includes how to source for news, how to write and edit news, and how to identify a news worthy event.

What I basically learnt from News Writing

- Introduction to News
- Definition and purpose.
- Characteristics of News writing
- The inverted pyramid structure
- Elements and News story
- Writing Styles
- Tips for effective News writing

- **WORK ACTUALLY CARRIED OUT**

- The paramount importance of industrial training experience scheme is to gain additional knowledge to what a person has been taught and learnt in class before. It gives the students chance to put in practice their beforehand knowledge.
-
- 1. I participated in sourcing information concerning social happenings and latest news in which I have the opportunity to write a personal paid announcement (PPA) Report for the media station.
- 2. I also participated in writing new stories from press release, hand bills and invitation card to acquire more knowledge in writing news and reporting.
- 3. Moreso, transcription of news was also one of the major things I do and also we learn about the instruments used in catering of news such as midget, tape recorder e.t.c. Furthermore, am able to know more about transcriptions of news.
- 4. I have the opportunity to conduct an interview for the siwes student around and this give me the opportunity to participate in market survey of food commodities and monitoring the news progress on bridge construction at challenge Ilorin kwara state.

News Room

A **newsroom** is the central hub where news organizations, such as newspapers, television stations, radio stations, or online media platforms, coordinate and manage their news-gathering and production activities. It serves as both a physical space and a metaphorical center for collaboration among journalists, editors, and producers.

The Role of Advertisement in Mass Communication

During my Students Industrial Work Experience Scheme (SIWES) placement, I had the opportunity to gain practical experience in the field of mass communication, particularly in the area of advertisement. Advertisement plays a crucial role in mass communication, serving as a bridge between businesses and their target audiences. It is an essential tool for creating awareness, promoting products or services, and influencing consumer behavior. This experience exposed me to the dynamics of advertising and its importance in the communication process.

Advertisement in Mass Communication

Advertisement, as a core aspect of mass communication, involves the dissemination of persuasive messages to large audiences through various media channels. These channels include television, radio, newspapers, magazines, billboards, and digital platforms. The primary objective of advertising is to inform, persuade, and remind the public about a product, service, or idea. It also helps organizations build their brand image and maintain relevance in a competitive market. At my SIWES placement, I observed and participated in various advertising campaigns, which gave me a deeper understanding of how messages are crafted and delivered to achieve specific goals.

My SIWES placement was at a media-focused organization where I worked closely with the advertising department. During this period, I witnessed the end-to-end process of creating and executing advertisements. This included:

1. **Research and Planning:** I participated in brainstorming sessions where market research was conducted to understand the target audience. This step is essential to develop strategies that align with the audience's needs and preferences.
2. **Content Creation:** I learned how to design advertising content, including headlines, slogans, visuals, and scripts. I gained hands-on experience using tools like Canva and Adobe Photoshop to create engaging visuals for print and social media platforms.
3. **Media Selection:** I observed how media platforms were chosen based on the nature of the product and target audience. For example, products aimed at young people were promoted heavily on social media, while services targeted at older demographics utilized radio and newspapers.
4. **Execution and Monitoring:** I contributed to scheduling advertisements and tracking their performance. This involved analyzing audience engagement metrics to determine the effectiveness of the campaigns.

Skills Acquired

The SIWES experience significantly improved my knowledge and skills in advertisement and mass communication. Some of the key skills I acquired include:

1. **Creative Content Development:** I learned to write compelling advertising copy and design eye-catching visuals to attract and retain audience attention.
2. **Strategic Thinking:** I developed the ability to analyze market trends and audience behavior, which are critical for planning successful advertising campaigns.
3. **Media Literacy:** I gained insight into how different media channels operate and how to select the most appropriate medium for a campaign.
4. **Teamwork and Collaboration:** Working with a team of professionals taught me the importance of collaboration and effective communication in achieving organizational goals.
5. **Technical Skills:** I acquired proficiency in tools such as Canva, Adobe Photoshop, and social media analytics tools, which are essential for designing and monitoring advertisements.

CHAPTER FOUR

SUMMARY, RECOMMENDATION AND CONCLUSION

My experience at GERIN FM 95.5 Ilorin, is a wonderful experience and I have come to say that studying Mass Communication without practical, could be regarded as a waste of time, resources and energy because the training has helped me a lot.

I was taught how to write News basically, how to cast a news, how to handle different equipment in Radio Station, writing of News story, how to edit news and identify a news worthy event. I was also exposed to different equipment that are used in the radio station.

RECOMMENDATION

1. I would recommend that the Kwara State polytechnic should improve the school by assisting the SIWES student with computer and modern technology and it would lead to create development of the school
2. I would recommend that the department of Mass Communication in Kwara State Polytechnic should expose student to practical skill and allow them to practice until they understand it perfectly well.

CONCLUSION

Student Industrial Work Experience Scheme is very Essential for all student to be able to understand what their cause of study will present to them after graduation and also learn beyond what you they will be able to learn in school.

SIWES really helps student a lot by also allowing student to connect with people that are already practicing in the field. All thanks to the Government, GERIN FM, Kwara State Polytechnic and my Department.
