CHAPTER ONE

INTRODUCTION

SIWES is an acronym of student industrial work experience scheme. SIWES is an effective instrument used for exposing student to the realities of the work environment in Nigeria, especially and the world in general, in their various profession so as to achieve the needed technological advance for the nation.

SOME OF THE AIM OF SIWES ARE:

- To provide for the student opportunities to be involved in the practical aspect of their respective disciplines. This bridging the gap between the practical aspect taught in the class and the real world situation
- To expose student to latest development or technological innovation in their chosen profession
- To prepare students for industrial working environment they are likely to meet after graduation

BRIEF HISTORY OF SIWES

The student industrial work experience scheme (**SIWES**) is skill training program designed to expose and prepare student of universities, polytechnic college of technology and others for the industrial work experience they are likely to meet after graduation.

the scheme also afford student of opportunity of familiarizing and exposing themselves to the needed experience in handling equipment and machineries that are usually not available to their institution, the Industrial Training Fund(ITF) funded the scheme during its formative year in 1973/74 but as the financial involvement became unbearable fund withdraw from the scheme in 1978. The federal government handed over the scheme in 1979 to both the National Universities Commission (**NUC**) and the national board for

technical education (**NBTE**) later, the federal government in November 1984 revert the management and the implementation of the SIWES program to (**ITF**) and it was effectively taken over by the industrial training fund in July 1985 with the funding being solely borne by the federal government.

IMPORTANCE AND OBJECTIVE OF SIWES

In regards to the SIWES handbook, the specific objectives and importance of the SIWES are to:

- Provide an avenue for student institution of higher learning to acquire industrial skills and experience in their course of study
- Prepare student for the industrial work experience they are to undergo after graduation.
- Provide student with an opportunity to apply their knowledge real work situation there by bridging the gap between theory and practical
- To satisfy accreditation requirement set by NBTE
- To provide student an opportunity to see the real world of their discipline and consequently bridge the gap between the classroom and real work situation
- To enable student asses interest suitable for their chosen profession

CHAPTER TWO

I was told to submit all my news stories for correction before final printing

CHAPTER FOUR

RECOMMENDATION

Going through some of the experience gained during the programme I recommend that there is need for improvement on some of the activities both in the media organization where I served and the school.

- The time deviation for the programme should be extended for more than a month.
- Media organization should create more practical knowledge for the students for them to acquire more knowledge from their versatile staffs.

CHAPTER FIVE

CONCLUSION

SIWES was established to provide opportunities for student to be involved in the practical aspect of their respective discipline in the industrial working environment. During my 4 month industrial training I gained a wide range of experience for the various assignments undertaken such as programme production and presentation, programme recording and editing process. All the experience gained helped to fulfill the objectives of SIWES.
