2.3 PROBLEM ENCOUNTERED DURING THE PROGRAMME

1. The major problem I encountered was the problem of finance as I had to transport myself from home to the station and the organization did not pay IT student.
2. Another problem I encountered was that in the station, they see IT student as clerk thereby sending us on errands like buying food, washing plate, making tea for the staff and so on.
3. Another problem I encountered was that they are bias and underrate IT student as if they are not human being.

1. how to attend to customers

2. I was there to learn on how to attend to customer and communicate to the customer from my co-workers

3. I practice how to be entering items on system
4. I learn on how to collected reservation and fort it down
5. I try to prepare double & egg and try to prepare jollof rice and it was taste by manager and she said is lovely

CHAPTE FOUR

4.1 SUMMARY

The period of SIWES training as made it possible for the student to acquire the necessary fundamental experience the field of hotel .

4.2 RECOMMENDATION TO SIWES

As matter of responsibilities the federal government to contribute, immensely to the upliftment of this programme by putting in place a considerable compensation for the student who embarked on this kind of stressful and dreary programme. The federal government has a lot of role to play in building up a brighter future (the next penetration) in order to maintain the peace and stability of the state.

Furthermore, a lot of task also lies on the school authority to the orientate and enlighten their student on the expected things they are going to face or encountering pleasantly or in the other hand when they got their various placement of works before the commencement of the programme.

4.3 CONCLUSION

I am appealing to all institution that they should get their student involve in the SIWES programme because I believe that they can be able to know more about their profession and be able to relate with people anywhere they go for their programme because it will expose them to various technical aspect of their profession which may not be privilege to undergo in the institution.
