competent Management structured under the General Manager as the head of the Station. There are (5) Directorates in Radio Kwara with all the Directors responsible to the General Manager. These Directorates include Director General Administration, Director Programmes, Director News and Current Affairs Department, Director Marketing and Director Engineering Services. Other departments are the accounting department and audit department.

2.2 OBJECTIVE OF RADIO KWARA

The main objectives of Broadcasting are to inform, educate and entertain. In carrying out these functions, Broadcasting organizations are guided by certain codes, ethics and practice. These are the dos and don'ts of broadcasting which cover and protect the rights of the audiences. They also take account and cater to the nature, interest and sensibilities of groups, like the women and children.

1. Respect the culture, norms, traditions and religions of societies and environments.
2. Ensure peaceful co-existence
3. Information Dissemination to the entire state

Here in Nigeria Broadcasting is regulated by the National Broadcasting Commission (NBC) which grants licenses to the operators and monitors their output to ensure adherence to professionalism.

There is Broadcasting Organizations of Nigeria (BON), a voluntary association of radio and television stations which came into existence in 1973. The Society of Nigeria Broadcasters (SNB) formed in 1979 caters to the welfare of practitioners, while BON is involved in training and exchange of ideas and programmes and Nigeria Union of Journalists.

BON, in addition, engages in joint coverage of important events like the National Sports Festivals, the 2nd All Africa Games of 1973, first West African Games of 1977 and the 2nd World Black Festival of Arts and Culture, (Festac 77). There is as well FIBAN (the Freelance and Independent Broadcasters Association of Nigeria) formed in 2002 to cater for the welfare of its members.

DEPARTMENTS AND FUNCTIONS

General Organization of Radio Kwara General Administration

General administration division is the General Manager or station manager, the business manager, the accountants, the secretaries, and other administrative and office staff. These employees serve various duties such as the payment of wages and salaries, membership fees and subscriptions for industry information, license and other government-imposed fees, taxes, insurance, legal and auditing fees, and contributions to charitable organizations.

In addition, maintenance of the building and of equipment, utilities, office supplies, computers, station automobiles, and other administrative services and supplies are also provided by the general administrative department. It is not surprising, then, that this department consumes one-third of the total operating expenses of a station, although only about 13 percent of the total staff may be in administration. Marketing the sales department at Radio Kwara responsible for generating the revenue for the station to survive. A general sales manager leads a team that is comprised of a national/regional sales manager, a local

sales manager, account executives, and at times, a traffic manager. In most cases, the national/regional sales manager will be a liaison from an outside organization that wins advertising contracts from regional and national advertisers. The local sales manager, then, is charged with securing advertising accounts with local businesses and organizations.

A staff of account executives helps the local sales manager sell advertising time to local businesses employing solicitation tactics similar to sales businesses. However, the salespeople of television must negotiate advertising sales using a rate card, a definitive list of airtime costs during the various time periods and television programs.

Programming

The programming department, in conjunction with the production and news departments, acquires and schedules the product that the audience consumes, which in turn allows the sales department to create revenue, which in turn allows the general administration department to facilitate station operations. The programming department is responsible for filling the entire broadcast day with programming and is therefore saddled with arguably the most challenging job in television. Consequently, this department also works closely with the traffic department in programming schedule. structuring the daily Programming is second only to general administration in terms of operating expenses. The department, if its station is affiliated with a network, needs almost 25 percent of the total budget of the station to function. However, an independent station may give as much as half of its total operating budget to the acquisition of programs. Programming may consist of a program director, a videotape librarian, a ratings researcher, an acquisitions staff, a continuity standards staff, and on-camera personalities for use in locally originated programs. The program director, helped by the acquisitions personnel, may obtain the majority of the programming of a station from syndicators and other program suppliers. If a station is affiliated with a major television network, then programming will have the luxury of choosing how much programming it will schedule from the network. In a larger market, viewership research may be conducted to help the program director select a programming plan that will attract a substantial audience. Community feedback also aids in planning decisions.

However, all decisions concerning programme acquisition are ultimately controlled by the amount of revenue gained from sales and the resulting budget allotted the programming division.

CHAPTER THREE AND FOUR

3.1 ACTIVITIES DURING THE SIWES PERIOD

When I resumed, I was properly documented at the office of the Industry-based S.I.W.E.S coordinator. After documentation I was posted to the Place of my Primary Assignment, the News and Current Affairs Department. I was formally introduced to members of the department for integration into the department. I was then briefed on the established rules of engagements at the News and Current Affairs Department after which I met with my in-house trainer(s) to guarantee desired familiarity. News and Current Affairs Department gathers information on daily basis, writes news, reports news, covers events to be disseminated to the general public at specific times the Department handles Current Affairs Programmes to create public awareness. Information passed from the News and Current Affairs Department is well refined, well referenced and also reliable. The department performs and ensures the core-values of efficient information management and delivery to members of the public. News and Current Affairs Department, however, has its unique internal structure in performing the identified responsibilities and duties, which are;

- Reportorial.
- Editorial.
- Current Affairs.

News Room serves as Central Operational points for Reportorial and Editorial while Current Affairs Unit handles current issues, affairs and activities.

3.2 INTERNAL STRUCTURE OF THE NEWS AND CURRENT AFFAIRS DEPARTMENT

3.3 SKILLS AND KNOWLEDGE ACQUIRED

NEWS WRITING STYLE

News Writing has universal way of writing it. In other words, there is a global standard of writing news. It means that the style is adopted by the Journalists around the world. The style are;

1. The Inverted Pyramid
2. 5Ws and H

The style is peculiar to both print and broadcast. It should be noted that the style of broadcast is different from print. Television style is different from radio style. Every medium now adopts in-house style and Editorial policies e.g the in-house style is different from TV to TV, Radio to Radio, Print to Print. Similarly, newspaper in-house style is also different magazine to magazine and journal to journal. Also, Editorial policies of every media also different 5Ws and H explains what happens, where it happened, why it happened, who it happened to and how it happened. It should be noted that your news item must answer all the 5Ws and H

questions. Additionally, lead should not bear more than one or two of the 5Ws and H. it is an aberration and erroneous for all 5Ws and H to occupy a lead. Interestingly, news Writing is a creative writing, hence it should be learnt through vocation and professionalism, your creativity will appear in your news writing if you have one. In a nutshell to write a very good news item, you have to be brainy, good command of English and intelligence.

LEAD

Lead is the first paragraph of a news story. Rules guiding lead writing In Broadcast.

- It must contain the most important
- It must be short as much as possible
- It must be straight forward
- Two to three conjunction must be avoided in lead casting
- The idea of the lead must be properly conveyed

TYPES OF LEAD

1. Issue-based lead
2. Personified lead

1. Issue-based lead is the type of lead that focuses on the issue in the first paragraph. This means that the subject matter takes center stage.

2. Personified lead is the type of lead that links the issue with the speaker

Example of Issue based lead.

Students of Tertiary institution have been asked to desist from acts capable of impeding their academic pursuit.

Personified;

Vice chancellor, Kwara State University, Malete, Professor Muhammed Akanbi has encouraged Students of tertiary institutions to desist from action capable of affecting their future.

It is important to note that news is written from general to specific and every word in a news item will be queried by the duty Editor, which means that the news writer/Reporter must be proficient in the spellings of English words, Sentence constructs, punctuation and other necessary grammar agreements.

ATTRIBUTION;

It reflects where the event has taken place and who is involved as the case may be. It should be emphasized that a news item without an attribution will be grossly inaccurate.

TYPES OF ATTRIBUTION

Immediate/Instant Attribution

Delayed attribution

Immediate/ Instant Attribution; is the paragraph that comes immediately after the lead using the extract of the example of Personified lead.

Vice Chancellor, Kwara State University, Malete, Professor Muhammed Akanbi has

encouraged Students of tertiary institutions to desist from action capable of affecting their future.

Professor Akanbi gave the encouragement while addressing a cross section of Students at the University Auditorium of the institution.

He frowned over immorality of some Students and charged them to turn a new leaf to secure a better tomorrow.

NEWS SOURCES

1. Press Release is an information materials meant to be broadcast or publish. It will be submitted to broadcast or print media.

TWO TYPES OF PRESS RELEASES

1. Essay format style press release: This is a press release not written in news style. It is written with personalized words e.g we want to use this medium to draw the attention of general public. The words I, We, You, My, Our and others are directly used in writing such a press release. If such a press release gets to a news room five minutes before broadcast, it cannot be accommodated because the release is not treated and raw, such could be used in subsequent news bulletin.

However, such a press release if important to be used when it gets to the news room five minutes before broadcast the best thing we can do is to flash ie information reaching us says the General manager, Kwara State Television Authority, Mr. Haliru Idris has been relieved of his appointment, details of this in our subsequent bulletins or Breaking news.

2. Real news Writing style format; this is a format written in news style. This means that the press released was written, issued and prepared by a professional journalist/news writer.

In this situation, if such a press release enters the news room five minutes before programme such a release can still go in full because the release has been treated from the originator. It should be noted that press release is also referred to as press Statement, news statement, news released and news.

Press release can be issued in two ways;

- ❖ Through Hard Copy and Softy Copy. It should be emphasized that copy is the most preferable i.e it will simplify the work of the duty Editor as their will be no room for typing.

Those That Can Issue Press Release Government, Non-governmental Organization (NGO)/ Civil Society organization, Religious bodies, Students Unions, Transport Unions, Security Agencies, Tertiary Institutions, Corporate Bodies, Individuals, Families

- ❖ Press Conference is a situation where journalists are invited, addressed and given opportunity to ask questions.
- ❖ Coverage; This is a situation where journalist visit the scene of the event or incidence e.g convocation, Matric, rallies, Government activities, flood, fire disaster, building collapse etc
- 4. Beat- Assigning a reporter to cover a particular place or sector e.g

Kwara State Government House, is a beat been covered by Radio Kwara correspondent, Abdurashed Okiki, Kwara State house of assembly, Saheed Abdullahi, Office of the first lady, Amina Mustapha, Police beat, Olayinka Alaya, Judiciary beat Bashir Jimoh, Health beat Maryam Abdulkadir Yusuf.

Other beats Include: Education, Environment, INEC Sport etc.

Beats is also referred to as specialized reporting this is because, writing of beat requires expertise and choice of words, it should be noted that terminologies must be used to write the news. Anyone covering a beat is perceived to be a specialist in such a beat places him or her as knowledgeable in that area. For instance, a reporter covering health as a beat for more than ten to fifteen years would have deep knowledge than the so called medical Doctors. 5. News Agency of Nigeria: is a parastatal-agency of federal government under federal ministry of information that sells news items for interested media organizations both print and broadcast stations.

This agency has reporters across 774 local government of Nigeria saddled with the responsibility of news gathering for onward purchase by interested potential customers. Any interested customer-media organization is expected to approach the agency with the payment of certain amount to the purse of the agency for subscription. If payment confirmed the customer will be given username and password to login into the portal of NAN for easy access of timely and fresh news across Nigeria, Africa and the world in general. Additionally, subscription to the agency enables its customers to source for news through the agency. Immediately, subscription of the customer elapses that media organization seizes to access fresh news as stall news or outdated news, ranging from news of last week, last month and last year begin to surface. It should be noted that as soon as subscription is renewed, the site-portal of NAN will load and update for new news items. Subscription of a customer that is media organization could be monthly, quarterly, weekly or yearly depending on the category available on the site of NAN. All branches of mass media patronize NAN for example, Radio Kwara has no correspondent at the state house, Abuja but can get news of state house through NAN timely. 6

Monitoring is the process of observing other media houses, whether print or broadcast for the purpose of news gathering. It should be emphasized that no media house can be said to be self-sufficient. This means that a media house can monitor other stations.

- ✓ You can monitor a live programme from your own station.
- ✓ You can monitor live programme of your station for news gathering.
- ✓ You can monitor a live programme of another station
- ✓ You can monitor live Broadcast of another station for news gathering
- ✓ You can monitor News of another station for news gathering.
- ✓ You can monitor newspaper online for news gathering.

On Monitoring recording could be made to capture all necessary information for news sourcing, such recorded information has to be transcribed. Bulletin is a mini magazine that contains information about a particular organization. It means that bulletin does not have information outside that organization e.g Kwara State University Bulletin, GTB bulletin is produced monthly, Quarterly or yearly, It is a source of news when it comes out fresh.

- ✓ Interview: Is the process of engaging in a fact finding mission, for the purpose of gathering information for news. In this situation, Experts on a particular field, Stakeholders and concerned citizens has to be consulted for questioning to extract information. It must be understood that the reporter has an interviewer must book appointment with the interviewee, and such a reporter must be on ground 30minutes before the time. In other words there are occasion where impromptu interview will be conducted. In this case as an interview you must be composed and know the appropriate questions to ask, you may not down your questions or ask your questions offhand, in a situation where we have interest groups like Political parties, religious interest groups or tribes you are expected to interview all parties concerned in other not to be labelled biased.

ACTUALITY: This is confirmation statement of the person interview. It could also be called track or insert.

CHOICE OF WORDS IN NEWS WRITING

1. Said, Noted, Stated, pointed out, Explained, observed, elucidated
2. Advised, Urged, Tasked, Asked, appealed, charged, encouraged, enjoined
3. Emphasized, stressed, reaffirmed, restated, reiterated, reechoed Sad, disheartening, unhappy, lamented, frowned, express worry,
4. express sadness, expressed displeasure Expressed happiness, expressed appreciation, commended, appreciated, applauded, praised, eulogized, hailed
5. Exceptional words: warned and Cautioned, Condolenced and commiserated, Dispelled and debunked, Described, Identified Submerged

SENTENCE BUILDING IN NEWS WRITING FOR BROADCAST MEDIA

Sentence construction is the bed rock of news Writing. Poorly constructed sentences is tantamount to news poorly written. Lead casting for broadcast requires simple, concise and straight forward sentences devoid of ambiguity. It should be noted that a lead for a broadcast should not exceed two conjunctions. Also, a news reporter as the first gate keeper must ensure that the lead is not above a sentence or two. A lead should not exceed three to four lines. That is why some professionals in the media practice recommended number of words in a lead, at least 30-40 words. Your lead could even be a line sentence e.g Today is World food day, Nigerians have been cautioned against corruption, People in positions of Authority have been asked meet the yearnings and aspirations of the people, Vice Chancellor, Kwara State University, Malete, Professor Muhammed Mustapha Akanbi, has encouraged institutions of higher learning's to strengthen their research base towards solving daunting challenges bedeviling the Nation. Chairman Economic and financial Crime commission Mr. Abdurashied Bawa has Cautioned staff members of independent National Electoral Commission, INEC to desist from financial inducement and other form of bribery, before, during and after next year's elections.

For attribution sentences, there should not be lengthy sentences but simple and straight forward. Similarly, Sentences after attribution must also be positioned in line with the lead and attribution sentences.

PRACTICAL NEWS ENGAGEMENT NEWS STORY ON MISSING

SPECIALIZED REPORTING

Specialized Reporting/Beats: this is a situation where a reporter is assigned to cover a particular sector or special area. A place where reporter is assigned to he/she is our correspondent. Example;

Government House Correspondent is a beat- the one covering and assigned to Government House from Radio Kwara is Mr. Abdulrasheed Okiki.

Kwara State house of Assembly, Ilorin; This is also another beat and the person assigned to from Radio Kwara is Mr. Saheed Abdullah. The House of Assembly members sit from Tuesdays to Thursdays Legislative Days. Judiciary Reporting; the person is assigned to cover the happening in the court and Judiciary as a whole.

Entertainment Beat; anything related to Entertainment.

Others includes: Science and technology Beat, Sport Beat, Business, Defense/Security beat. Etc

- What made it specialized?

It is specialized because terminologies of every beat must be used.

Special Report is the process of finding information with the aid of interview for the benefit of the populace. In other words, there is no physical event, crises or disaster to cover but the reporter takes extra mile to extract information for the purpose of writing his/her news. It should be noted that before a special report can be carried out, the reporter must generate a story idea to be investigated with the aid of interview.

Special Report is special because it takes the reporter special passion and strength to carry it out. For instance, Story ideas like Market Survey, Falling standard of education, high rate of corruption, cultism, moral decadence, prevalence of cancer, covid-19 pandemic and environmental degradation. As some likely story ideas that could be generated and investigated, for the purpose of dishing the public. Similarly, international days such as World food day, World Water day, World mother's day, independence day. Also, traditional festivities such as, Awon Mass Wedding in Shao, Gaani festival in Baruten, Ijakadi day, Aifala day in Ekiti pupa, Ilorin Grand Durba, Eyor in Lagos etc. It should be noted that the lead of a special Report may start with a background information in two or three paragraphs before bringing the interview. Special Report news could be started with what the interviewee said. For a special report to be rich, a reporter needs to sample the opinions of various respondents, Vox Pop will be adopted to gather information, the beauty of special report is to embark on vox pop.

SPECIAL REPORT EXAMPLE ON MOTHER'S DAYS.

Today is Mothers Day.

The day was set aside by UNESCO... It is celebrated to recognize the role of mother's in Nigeria.

Speaking with Haliru Idris on the significance of the day, a concerned Mother described motherhood as a relationship between a mother and a child.....

Our Staff Reporter, who visited some schools within Ilorin metropolis such as Ologe, Adeta, Okelele, Bababoko, Oja-Gboro and has Akanbi, reports that pupils and Students left he around half-past seven in the morning to resume in their respective schools Our Reporter gathered that the resumption today witnessed low turnout of pupils and Students, in most of the places visited. SPORT WRITING

Sport Writing is another area of news Writing and reporting which focuses on sporting events, such as football, basketball, table tennis, Handball, golf, polo cricket, hockey etc. It should be noted that there are divergent sport engagements both local and international e.g Nation Cup, Confederation cup, World Cup, Olympics and friendly matches. Sport Reporting also known as sport Journalism is a beat where expertise is required for appropriate coverage of sport activities. Those in the business of reporting sport are regarded as sport journalists under the umbrella of Sport Writers Association of Nigeria, SWAN. In sport activities e.g there are Journalists covering only football, covering only boxing, covering table tennis, covering soccer Journalists are automatically a sport enthusiast which means that such a person will be extremely happy where he or she hears about any sport activity. Similarly, a Sport Journalist in most occasion are sport analysts and sport commentators who comments and analysis sport activities when the need arises. It should be emphasized that the way you count

scores differ from a sport activity to another.

3. Omafowa Ebare of AIT
4. Jimoh Basheer of Herald newspaper (Ilorin)

NEWS MATHEMATICS

News Mathematics is the process of adding, subtracting, dividing certain figures in every news item that made up a bulletin to determine caster's time on air. In other words, news Mathematics is a strategy of timing a news caster. Every line of a news item must be counted except the one that does not reach the middle. The figure of the lines of every news item would be written first and second part of a bulletin including the headlines and the round off would be calculated together to arrive at specific number of lines to be given to a caster. It should be noted that the second part must not be higher than the first part. The Editor on duty must ascertain the capacity of a particular news caster in order to be given appropriate number of lines. Ideally, news presentation is allocated with airtime. Hence, the caster should not over run the airtime allocated for the news casting. On the other hand, it is not always advisable for the caster to conclude news presentation before the actual allocated time (Preferable to time over run). It is good for duty editor to know the pace of every news caster to be able to take sound Editorial decisions relating to news presentation.

CHAPTER FIVE

SUMMARY

The Student Industrial Work-Experience Scheme (SIWES) is a planned and supervised training intervention based on stated and specific learning and career objectives, geared towards developing the occupational competencies of the participants. It is a programme required to be undertaken by all students of tertiary institutions in Nigeria pursuing courses in "specialized engineering, technical, business, applied sciences and applied arts and Mass Communication". On the other hand, Broadcasting, primary means by which information and entertainment are delivered to the public in virtually every nation around the world. Broadcasting is a crucial instrument of modern social and political organization. My experience in broadcast station like Radio Kwara, is an exposure of value. I was able to expose to the rudiments of News Writing and Reporting. During my training at the News and Current Affairs Department, I practically served at the Editorial unit of the department. I was taught a news story format for radio broadcast should look like.

I learnt that in writing a News story, news are written from the most important to less important every situation as enshrined in Inverted Pyramid style. I also went on a media tour at Gravity FM, Igboho where I was also exposed to News Writing based on its House Style and Editorial policy.

CONCLUSION

Coordinators and Organizers of the SIWES programme must in earnest compel tertiary institutions to adhere strictly to the duration for SIWES attachment in any industry if they really want to bridge the gap between the theoretical knowledge acquired in tertiary institutions and the practical skills required in today's workplace. SIWES coordinators should take note that there are some companies or industries in the country who don't allow industrial attachments, such companies should be penalized under section 8A (2) of Decree No. 47 of 1971 as amended in 2011. By doing this more credence would be given to the Programme.

I urge undergraduates to seize the opportunity given by the SIWES programme to develop their skills and prioritize practical development over theories in their academic pursuit in various field of study.

SIWES has made me to see the other side of my course of study and also afforded me the opportunity to make use and link what I have learnt in the lecture room in the practical field.

PROBLEMS ENCOUNTERED

Getting used to the working environment at first was challenging, meeting at different levels who are at different locations within the city, imbibing good working ethics needed as a journalist,
