

**A REPORT ON STUDENT INDUSTRIAL WORK  
EXPERIENCE (SIWES) UNDER THE STUDENTS'  
INDUSTRIAL WORK EXPERIENCE SCHEME**

**UNDERTAKEN @**

**ADE FARMS AND VETERINARY  
GAMBARI AREA, ILORIN, KWARA STATE, NIGERIA**

**BY**

**SHUAIB NIMOTALAI OMOBOLANLE  
ND/23/AGT/FT/0023**

**SUBMITTED TO**

**THE DEPARTMENT OF AGRICULTURAL TECHNOLOGY,  
INSTITUTE OF APPLIED SCIENCES, KWARA STATE POLYTECHNIC,  
ILORIN**

**IN PARTIAL FULFILMENT OF THE REQUIREMENT FOR THE AWARD OF  
NATIONAL DIPLOMA (ND) IN AGRICULTURAL TECHNOLOGY**

**AUGUST-NOVEMBER 2024**

## **PREFACE**

The writing of this SIWES report is manufacture by the school authority that before attaining the certificate of National Diploma (ND) in Agricultural Technology. Each student must undergo the four (4) months SIWES programme.

The SIWES record therefore contains the work done within the four months.

## **TABLE OF CONTENTS**

Title page

Preface

Table of contents

### **CHAPTER ONE**

1.1 Introduction

1.2 Brief History of SIWES

1.3 Aims and Objectives of SIWES

### **CHAPTER TWO**

2.1 Brief history of the Organization

2.2 Organizational chart of the company

2.3 Various Department and their functions

2.4 Vision and Mission of the Organization

### **CHAPTER THREE**

3.1 Experience Acquired

3.2 Work Done

### **CHAPTER FOUR**

3.1 Executive Summary

### **CHAPTER FIVE**

5.1 Problem Encountered during the Attachment and Solution

5.2 Conclusion

5.3 Recommendations

## **CHAPTER ONE**

### **1.1 INTRODUCTION**

Student Industrial Work Experience (SIWES) is a four months programme setup by the federal government for professional student in Agricultural Technology and other elected courses which is controlled, in which the headquarter is in Kaduna State in affiliation with Industrial Training Fund (ITF) at Jos.

However, the government introduced the programme in other to assist students to be familiar with the practical aspect of their profession.

Student Industrial Work Experience (SIWES) is a programme setup by National Board of Technical Board (NABTEB) for its practical improvement of Agricultural Technology. The programme is setup during the period of three months which is corresponding with a body known as Industrial Training Fund (ITF).

### **1.2 BRIEF HISTORY OF SIWES**

Prior to the establishment of the scheme, there was growing concern among our industrialists that graduates of our institutions of higher learning lacked adequate practical background studies preparatory for employment in industries. Thus, the employers were of the opinion that theoretical education going on in higher institutions was not responsive to the need of the employers of labour.

It is upon this background that the rationale for initiating and designing the scheme by the Industrial Training Fund, during its formative years- 1973/1974- was introduced to acquaint students with the skills of handling employers' equipment and machinery.

The ITF solely funded the scheme during its formative years. But as the financial involvement became unbearable to the fund, it withdrew from the scheme in 1978. In 1979, the Federal Government handed the scheme over to both the National University Commission (NUC) and the National Board for Technical Education (NBTE). Later the Federal Government in November 1984, reverted the management and implementation of the SIWES programme to ITF and it was effectively taken over by the Industrial Training Fund in July 1985 with the funding being solely borne by the Federal Government.

### **1.3 AIMS AND OBJECTIVES OF THE PROGRAMME**

The aims and objectives are as follows:

1. To provide wide practical experience of the industrial Student in Various Studies.
2. To give inspiration, commitment and dedication to the student
3. To enlighten the student about various aspect of their course of study
4. To hasten the level of understanding and studying since they had been exposed to practical aspect of their course.

## **CHAPTER TWO**

### **2.1 ABOUT THE ORGANIZATION**

Ade Farms and Veterinary, located in Gambari Area, Ilorin, Kwara State, was established with a passion for promoting animal health and agricultural development. From humble beginnings, the farm has grown into a trusted provider of quality livestock, veterinary care, and agricultural services. With a focus on innovation, animal welfare, and sustainable practices, Ade Farms has become a reliable name in the local farming community, offering expert veterinary services and contributing to food security in the region.

### **2.2 ORGANIZATIONAL STRUCTURE**

The company operates under different departments, including:

- Feed Mill Department – responsible for feed formulation and production.
- Farm Section – oversees crop cultivation.
- Poultry Section – manages chicken rearing and egg production.
- Fish Pond Management – handles fish breeding and sales.

### **2.3 VISION AND MISSION OF THE ORGANIZATION**

#### **VISION STATEMENT**

To be a leading agricultural and veterinary service provider in Nigeria, known for excellence, reliability, and a commitment to advancing animal health and agricultural sustainability.

## **MISSION STATEMENT**

To deliver high-quality livestock and veterinary services through ethical, innovative, and sustainable practices that support animal health, food production, and rural development.

## **CHAPTER THREE**

### **EXPERIENCE ACQUIRED/ WORK DONE**

#### **3.1 WORK DONE**

During my SIWES at Lower Ade Farms and Veterinary, I participated in various activities, including:

- ✚ I assisted with vaccinating and administering medication to the birds because they seem so wet. Their feeding was changed because it was so dirty.
- ✚ I was sent to get the layers feed which is layers mash from the market and also get some new crates.
- ✚ I went to get some powered blood tonic from the store after getting back to the main farm, I observed and noticed that there were some boiler chicks that were sick. I separated them immediately so the healthy ones won't be affect.
- ✚ I assisted with analyzing data on egg production which includes egg numbers, eggs weights and egg quality.
- ✚ I assisted in monitoring egg production which includes collection and recording of egg data. I participated in egg grading and parking procedures.
- ✚ I collected and analyzed data on farm operations which includes egg production, feed consumption and bird health.
- ✚ I participated in responding to customers inquires and I also resolved their complaints.

- ✚ The broilers were fed by me. Eggs and waste dump was sold out.
- ✚ Soil Testing: Collecting soil samples and conducting tests to determine nutrient content and pH levels, informing fertilization strategies.
- ✚ Seedling Nursery Management: Raising seedlings in nurseries, including watering, weeding, and transplanting them to main fields.
- ✚ General cleaning was done and eggs was picked later in the day.

### **3.2 EXPERIENCE GAINED**

Through my industrial training, I acquired practical skills, including:

- i. Feed Formulation Knowledge – I learned how to mix balanced diets for livestock and poultry.
- ii. Livestock Management – I gained experience in handling poultry, monitoring diseases, and maintaining farm hygiene.
- iii. Crop Production Techniques – I learned soil preparation, planting, and harvesting skills.
- iv. Teamwork & Communication – Working with farm supervisors improved my ability to collaborate effectively.
- v. Problem-Solving Skills – I developed the ability to troubleshoot farm-related challenges, such as pest infestations and disease outbreaks.

## **CHAPTER FOUR**

### **4.1 EXECUTIVE SUMMARY**

SIWES means Student Industrial Work Experience. Students are out annually to professional organization relevant to their course of study with the help of the institution based. Coordinator and the scheme take up while students are promoting to ND 2 during the National Diploma programme for science oriented courses studied in institutions. The scheme was established by the ITF (Industrial Training Fund) to solve the problem of lack of adequate practical skills. During this programme, students are expected to get technical assistance and acquire more experience scheme in their chosen field of study.

## **CHAPTER FIVE**

### **5.1 PROBLEMS ENCOUNTERED DURING THE ATTACHMENT AND SOLUTION**

I didn't face or encounter any difficulty or problem during my attachment except that my place of attachment is far away from my house.

But the general problems that students encounter before and during the attachment are as follow:

- Lack of available industry in the location of some students
- High cost of transport fare from the students resident to the attachment
- Laziness of some students during the attachment

### **SOLUTION**

- Government should increase their investment on establishing companies for science oriented students.
- There should be a certain amount to be paid to the students during the attachment
- There should be monthly check on the students during the attachment

### **5.2 CONCLUSION**

Student Industrial Work Experience (SIWES) is a scheme that improves the technical knowledge of students in the Nigeria institutions. The scheme exposes students to working method and techniques in handling equipment's and machinery that may not

be available in their institutions. It is a good process that every science oriented courses must undergo.

As for me, the SIWES I did at Ade Farms And Veterinary, Ilorin, Nigeria Limited exposed me to the practical aspect of my program. It widens my knowledge and skill on the discipline. The scheme equips students properly to face future challenges.

Lastly, big thanks to the Industrial Training Fund (ITF) for the establishment of SIWES which now serves as an opportunity for we students of the Nigeria institution.

### **5.3 RECOMMENDATIONS**

Federal government, as a matter of responsibilities has to contribute immensely to the uplifts of this programme by putting in place a considerable compensation for the students who embarked on this kind of stressful and deadly programme. The federal government has a lot of role to play in building up a brighter future for us in order to maintain the peace and stability of the state.

Secondly, a lot of task also lies on the school authority to orientate and enlighten their students on the expected things they are going to face or encounter pleasantly or in the other hand when they get to their various placements of works before the commencement of the programme.

Thirdly, there should be rigorous inspection and supervision as some students count and envisage this programme as a mere task and they should as well enhance their strength and bestow and hefty mark on it.

Lastly, students need money for their upbringing and sponsorship, so I will urge the federal government to make the allowance more attractive to boost the students' morale.
