SUMMARY

Frontend Developer with over 4 years of experience, specializing in crafting responsive, user-focused interfaces using modern technologies like JavaScript, TypeScript, React.js, and Next.js. I have a strong track record of building and optimizing web applications, integrating state management tools such as Redux and Zustand, and ensuring seamless backend integration with Node.js. I've collaborated with teams of over 10 members to drive product improvements, achieving proficiency in user engagement and performance ranging from 20% to 80%.

SKILLS

Languages: JavaScript, React Native, Expo Go, TypeScript (React.js & Next.js), HTML, CSS/SCSS
Technologies: React.js, Next.js, GraphQL, REST, Docker, PWA, Webpack, Jest, Git and Git Actions
Soft Skills: Leadership, Communication, Teamwork, Creativity, Code Ownership

WORK EXPERIENCE

Raadaa Partners Intl. Ltd.

Abuja, NG

Frontend Developer

05/2023 – Present

- Implemented design revisions based on user feedback for the CBT application, leading to a notable 30% decrease in user-reported issues; ensured alignment with educational standards and upgraded overall functionality.
- Orchestrated the integration of advanced analytics tools into 6 government websites, enabling real-time data tracking and reporting, which facilitated a 30% reduction in response time to public inquiries.
- Contributed to the Decent Jobs Tech Skills initiative, a partner company to Raadaa, by developing the Diva Decent Job platform—a women empowerment program that boosted its visibility by 50%.

Sankira

Lagos, NG

Senior Frontend Developer

10/2024 – 12/2024

- Optimized the authentication flow, improving user experience and reducing login-related issues across the platform.
- Held weekly code review meetings with the frontend team, ensuring adherence to best practices and maintaining high code quality.
- Designed and implemented the search UI flow, enabling seamless and efficient content discovery for users.
- Developed the post media gallery, enhancing content presentation and engagement through a visually appealing and interactive design.
- Optimized the feeds page by converting it to SSR, boosting SEO performance and ensuring accessibility for web crawlers.

Codmify

Kwara, NG

Software Engineer

04/2021 – Present

- Worked on diverse projects, including a billboard e-commerce platform and Web3 company marketing pages, significantly increasing user acquisition and engagement.
- Integrated cutting-edge front-end technologies to create a seamless user experience, contributing to a 25% increase in user retention rates and elevating the app's overall ranking in the app store.
- Coordinated efforts between design, development, and product management teams, resulting in the adoption of a new project workflow that is now utilized by 8 team members, ultimately increasing project visibility and accountability.
- Conducted thorough testing and iteration on UI features that contributed to the overall modernization of the platform, leading to the successful launch of two major updates within a six-month period.
- Played a key role in the successful launch of several high-impact features, contributing to a 60% increase in customer satisfaction and retention.

PROJECTS

Rave Meet

React.js, Agora SDK

- Created a video conferencing tool utilizing the Agora SDK, introducing innovative features including screen sharing; transforming remote collaboration experiences.

EDUCATION

National Diploma in Computer Science

Kwara State Polytechnic
